

Json::Value::getOffsetStart

```
graph RL; A[Json::Reader::pushError] --> C[Json::Value::getOffsetStart]; B[Json::OurReader::pushError] --> C;
```

A diagram illustrating a relationship between three components. On the left is a gray rectangular box containing the text 'Json::Value::getOffsetStart'. To its right are two white rectangular boxes, one above the other. The top box contains 'Json::Reader::pushError' and the bottom box contains 'Json::OurReader::pushError'. Two blue arrows point from the right side of each of these two boxes towards the left side of the gray box, indicating that both 'pushError' methods interact with or call 'getOffsetStart'.

Json::Reader::pushError

Json::OurReader::pushError
